Safety notes

**Suitable actuators** 

Non-Spring

Materials

 WARNING: This product can expose you to lead which is known to the State of California to cause cancer and reproductive harm. For more information go to www.p65warnings.ca.gov

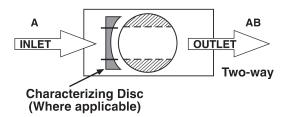

TR LRB(X) NR

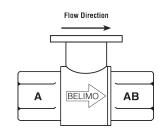

# **Product features**

# **Application**

This valve is typically used in air handling units on heating or cooling coils, and fan coil unit heating or cooling coils. Some other common applications include Unit Ventilators, VAV box re-heat coils and bypass loops. This valve is suitable for use in a hydronic system with variable flow.

# Safety notes

Technical data sheet LRX24-MFT

- Cable for ZIP-RS232 US and ZIP-USB-MP US to Belimo gateways.
- Classic GM to GMB(X) retrofit bracket.
- Battery Back Up System for SY(7~10)-110
- 120 to 24 VAC, 40 VA transformer.
- 12VDC 1.2 AH battery (2 required).
- 50% voltage divider kit (resistors with wires).
- PC Tool computer programming interface, serial port.

#### **Accessories**

| Gateways      | Description   | Туре    |
|---------------|---|---------|
|               | Gateway MP to BACnet MS/TP  | UK24BAC |
|               | Gateway MP to LonWorks  | UK24LON |
|               | Gateway MP to Modbus RTU  | UK24MOD |
| Service tools | Description   | Туре    |
|               | Connection cable 10 ft [3 m], A: RJ11 6/4 ZTH EU, B: 3-pin Weidmüller and supply connection   | ZK4-GEN |
|               | Service Tool, with ZIP-USB function, for parametrisable and communicative Belimo actuators, VAV controller and HVAC performance devices | ZTH US  |

### **Electrical installation**

## > INSTALLATION NOTES

1 Provide overload protection and disconnect as required.

Actuators may be connected in parallel. Power consumption and input impedance must be observed.

<u> Actuators may also be powered by 24 VDC.</u>

Only connect common to negative (-) leg of control circuits.

 $\triangle$  A 500  $\Omega$  resistor (ZG-R01) converts the 4...20 mA control signal to 2...10 V.

 $8 \over$  Control signal may be pulsed from either the Hot (Source) or Common (Sink) 24 V line.

Sor triac sink the Common connection from the actuator must be connected to the Hot connection of the controller. Position feedback cannot be used with a triac sink controller; the actuator internal common reference is not compatible.

 ${}^{\chick}$  IN4004 or IN4007 diode. (IN4007 supplied, Belimo part number 40155).

 $_{
m \Delta}$  Actuators with plenum cable do not have numbers; use color codes instead.

Meets cULus requirements without the need of an electrical ground connection.

#### Warning! Live Electrical Components!

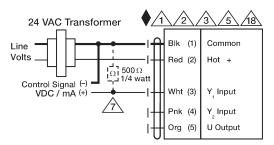

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
