| Valve size [mm] | 0.5" [15] | | |
|----------------------------|--|--|--|
| Fluid | chilled or hot water, up to 60% glycol | | |
| Fluid Temp Range (water) | 0250°F [-18120°C] | | |
| Body Pressure Rating | 600 psi | | |
| Close-off pressure Δps | 200 psi | | |
| Flow | A-port: as stated in chart B-port: 70% of A – AB Cv | | |
| Flow characteristic | A-port equal percentage, B-port modified for constant common port flow | | |
| Servicing maintenance-free | | | |
| Flow Pattern | 3-way Mixing/Diverting | | |
| Leakage rate | 0% for A – AB, <2.0% for B – AB | | |
| Controllable flow range | 75° | | |
| Cv | 3 | | |
| | | | |

Materials

| Valve body | Nickel-plated brass body | | |
|--------------------|---------------------------|--|--|
| Stem | stainless steel | | |
| Stem seal | EPDM (lubricated) | | |
| Seat | PTFE | | |
| Characterized disc | TEFZEL® | | |
| Pipe connection | NPT | | |
| O-ring | EPDM (lubricated) | | |
| Ball | stainless steel | | |
| Non-Spring | TR LRB(X) NRB(X) N4 | | |

TFB(X) LF

Safety notes

Spring

Suitable actuators

• WARNING: This product can expose you to lead which is known to the State of California to cause cancer and reproductive harm. For more information go to www.p65warnings.ca.gov

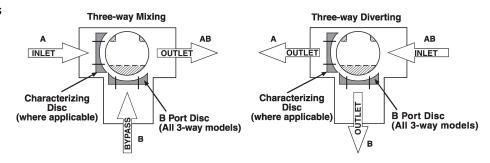

Product features

Application

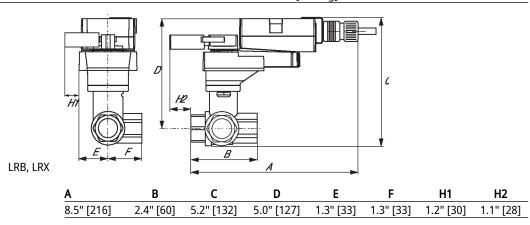

This valve is typically used in air handling units on heating or cooling coils, and fan coil unit heating or cooling coils. Some other common applications include Unit Ventilators, VAV box reheat coils and bypass loops. This valve is suitable for use in a hydronic system with variable or constant flow.

Weight Weight 3.4 lb [1.5 kg]

Materials Housing material galvanized steel

Footnotes †Rated Impulse Voltage 800V, Type of action 1.AA, Control Pollution Degree 3

Electrical installation

X INSTALLATION NOTES

Actuators with appliance cables are numbered.

Yerovide overload protection and disconnect as required.

Actuators may also be powered by DC 24 V.

6 Only connect common to negative (-) leg of control circuits.

 Λ A 500 Ω resistor (ZG-R01) converts the 4...20 mA control signal to 2...10 V.

Actuators may be connected in parallel if not mechanically linked. Power consumption and input impedance must be observed.

One built-in auxiliary switch (1x SPDT), for end position indication, interlock control, fan startup, etc.

Apply only AC line voltage or only UL-Class 2 voltage to the terminals of auxiliary switches.

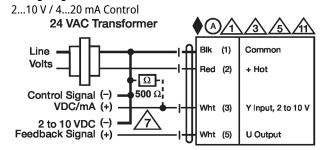

Mixed or combined operation of line voltage/safety extra low voltage is not allowed.

Meets cULus requirements without the need of an electrical ground connection.

Warning! Live electrical components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
