

Potable water valve, 2-way, Flange

- For potable water applications
- NSF/ANSI 372 Lead Free
- NSF/ANSI 61 CLD 23 Water Quality
- CRN: OC/2102CL
- MSS SP67-2002a

2-year warranty

Technical data

Functional data

Valve size [mm]	8" [200]	
Fluid	Potable water	
Fluid Temp Range (water)	-30120°C [-22250°F]	
Body Pressure Rating	ANSI Class Consistent with 125, 200 psi CWP	
Close-off pressure Δps	150 psi	
Flow characteristic	modified equal percentage	
Leakage rate	0%	
Pipe connection	Flange	
	for use with ASME/ANSI class 125/150	
Installation orientation	upright to horizontal (in relation to the stem)	
Servicing	maintenance-free	
Rangeability Sv	30:1 (for 3070° range)	
Flow Pattern	2-way	
Controllable flow range	90° rotation	
Cv	3136	
Maximum Velocity	12 FPS	
Lug threads	3/4-10 UNC	
Valve body	Ductile cast iron ASTM A536	
Body finish	Epoxy powder coating (black RAL 9005)	

Materials

Lug threads	3/4-10 UNC	
Valve body	Ductile cast iron ASTM A536	
Body finish	Epoxy powder coating (black RAL 9005)	
Stem	416 stainless steel	
Stem seal	Buna-N	
Seat	EPDM	
Bearing	RPTFE	
Disc Aluminum Bronze		
Non Fail-Safe	PRB(X)	
Electrical fail-safe	PKRB(X)	

Suitable actuators

Jui	Capie	actu	atoi 3

Safety notes

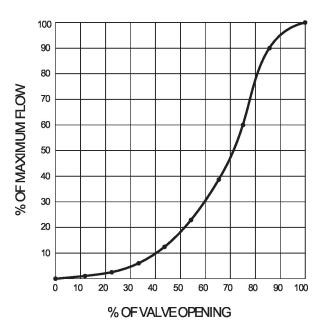

• The valve has to be exercised at least once a week, so that the quality of potable water as well as the functionality are not affected.

Product features

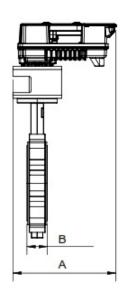

Flow/Mounting details

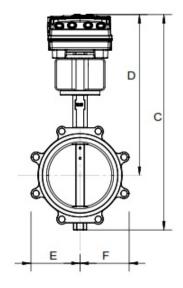

Operating mode The valve is adjusted by a rotary actuator. The rotary actuator is connected by an on/off signal. Open the ball valve counterclockwise and close it clockwise.

Dimensions

DN	Weight	
200	26 lb [12 kg]

Product features

Application

PR Series valve actuators are designed with an integrated linkage and visual position indicators. For outdoor applications, the installed valve must be mounted with the actuator at or above horizontal. For indoor applications the actuator can be in any location including directly under the valve.

Operation

The PR series actuator provides 90° of rotation and a visual indicator shows the position of the valve. The PR Series actuator uses a low power consumption brushless DC motor and is electronically protected against overload. A universal power supply is furnished to connect supply voltage in the range of AC 24...240 V and DC 24...125 V. Included is a smart heater with thermostat to eliminate condensation. Two auxiliary switches are provided; one set at 10° open and the other is field adjustable. Running time is field adjustable from 30...120 seconds by using the Near Field Communication (NFC) app and a smart phone.

†Use 60°C/75°C copper wire size range 12...28 AWG, stranded or solid. Use flexible metal conduit. Push the listed conduit fitting device over the actuator's cable to butt against the enclosure. Screw in conduit connector. Jacket the actuators input wiring with listed flexible conduit. Properly terminate the conduit in a suitable junction box. Rated impulse Voltage 4000 V. Type of action 1. Control pollution degree 3.

Accessories

Mechanical accessories Description Type Hand crank for PR, PKR, PM ZG-HND PR

Electrical installation

Meets cULus requirements without the need of an electrical ground connection.

UP) Universal Power Supply (UP) models can be supplied with 24 VAC up to 240 VAC, or 24 VDC up to 125 VDC.

Disconnect power.

Provide overload protection and disconnect as required.

Two built-in auxiliary switches (2x SPDT), for end position indication, interlock control, fan startup, etc.

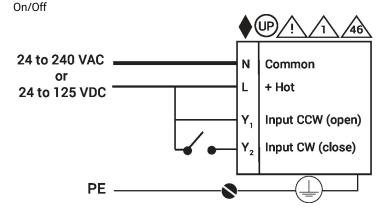

Actuators may be controlled in parallel. Current draw and input impedance must be observed.

Warning! Live electrical components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
